Reproductions

Bendigo Ornamental Plaster are experts in reproductions. If you have something special in a current project that you would like to replicate, or have a heritage property that requires you to maintain the original styling, then we are the people to see.

The example above is a reproduction of a very damaged old pressed metal cornice, which was undertaken for the Marong Family Hotel in regional Victoria. The reproduction fits in perfectly with the original cornice and pressed metal ceiling that remain, and has really enabled the owners to maintain the old world charm of this building.

Custom Orders

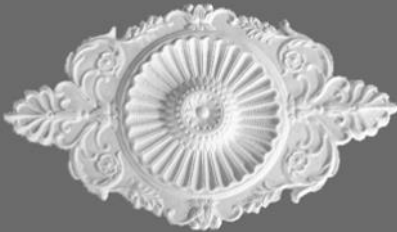

Bendigo Ornamental Plaster are experts in custom designs. If you don't see anything in our range that meets your needs, would like something more unique, or want an existing design but in a curved cornice, then come to us!

The example below is a custom order of curved cornice with a unique profile that was designed by the customers, Ian and Edith Dyett of Bendigo. This design was created specifically to align with the feng shui principles recommended by a Buddhist monk that had come from India to review their property. All surfaces were required to be as round as possible, but to complement an art deco style.

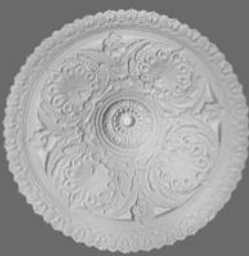

The owners had a lot of trouble finding someone that could undertake this work. However, once they approached Bendigo Ornamental Plaster, Edith and Ian were able to work with Dave through various iterations to come up with the perfect design. Edith has reported how relieved she was to find an expert in regional Victoria, and that she is absolutely delighted with the end product. The quality products produced by Bendigo Ornamental Plaster were further complimented by the quality installation by Jason at JH Plastering, Bendigo.
