## Free Music Program - Term 4

Commencing Monday 13 July & Wednesday 15 July

We would like to welcome you to our Free Music Program. This is an initiative that seeks to promote music education for children attending Australian schools. Our teachers well-versed in music pedagogy and have many years' experience in playing and teaching. They will guide the children gently along their musical journey.

In our classes the children will not only learn to happily play their **violins, violas or 'cellos**, they will also learn all about music theory and sing together to develop their aural skills. Students can also earn awards benchmarked to international standards.

While most students like to play the violin as their first-string instrument, students can also learn to play the viola or 'cello in any of our groups.

**Where:** Performing Arts Centre at Le Page Primary School (77 Argus St. Cheltenham)
