

## H&M Timber Solutions

*QUALITY is what we do!*

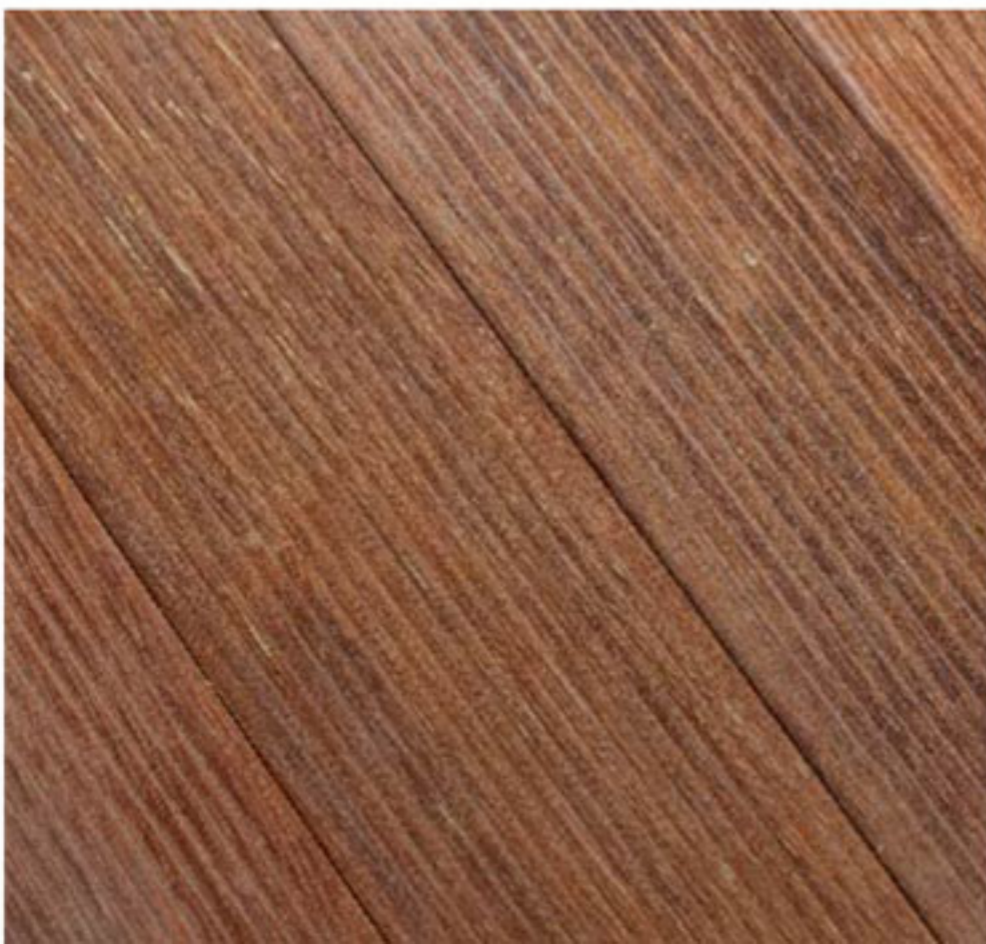

4/13a-15 Industrial Avenue,

Hoppers Crossing, Victoria 3029, Australia

MERBAU Gold is a beautiful, warm, reddish-brown in color and a gorgeous, natural color variation, it is perfect for bringing depth and warmth to any setting. Carefully selected and importing of hardwoods for the Australian markets.

### 100% Natural

MERBAU Gold is a top choice with homeowners due to its strength, natural warm beauty, renowned durability and natural resistance to termites. Its dense structure and interlocking grain serve as a natural deterrent to decay, insects and molds. Class A Flame Spread Rating, 100% clear grade, kiln dried and always double checked by exclusive graders. Its high quality and sturdiness is why it is often used in the construction and engineering applications. A proven performer of the Highest Quality Hardwood.

### MERBAU Gold® Hardwood Decking

- Beautiful, warm, reddish brown color with gold colored flecks and gorgeous, natural color variation.
- 100% natural & 100% clear grade; always inspected by graders

### **disclaimer:**

MERBAU hardwood decking products are carefully selected and inspected to ensure the finest quality. However, all natural wood is subject to expansion and contraction as the moisture in the environment surrounding the wood changes. Shrinkage, expansion, checking and other movement are normal occurrences in all hardwood decking. Natural wood products are subject to variances in color, grain, density and performance.
