

About us

[The Farm Co](#) have been supplying and delivering farming equipment to Australians across the nation for over 13 years. Before our online store and warehouses were developed and the business came to life, our experience has mainly been in the grains, animal health and crop management industries. We realised firsthand how hard it can be getting the necessary tools and equipment you need to do the job whilst maintaining and managing your own farm, which is why we have created one of the largest online stores for farming equipment and supplies in Australia.

Our access to a fast and efficient national delivery network allows us to get you the supplies you need to get back to business. Our warehouses are located in major hubs Perth, Melbourne, Sydney and Brisbane, so you can be sure that your delivery will be at your front door in no time!

Choosing to buy with The Farm Co means that you can enjoy the benefits of fast and efficient service, the convenience of home delivery to anywhere in Australia, unlimited product after sales support and the highest quality products from trusted brands.

Our services

We stock a wide range of supplies available for delivery across Australia!
