

Dear Sir/Madam,

Crystal Security Group (Crystal Security and Investigations Pty Ltd) is a security and investigations company, which holds security agent, crowd controller agent and enquiry agent licences.

The company was established by Steve Wilde and Matt Coghlan, both ex-police officers having served in both the UK and WA Police, with a total of over 26 years policing experience in various fields including general policing, detective, traffic patrol, tactical firearms, and surveillance.

Since leaving the police service, Steve has established a successful business and has now diversified into the security industry. Matt has worked as a private investigator and also a senior security supervisor in the mining industry, specifically a large gold mine near Kalgoorlie. Matt is responsible for a team of security guards and is experienced in all aspects of the security processes from running the main gatehouse, overseeing gold shipments, assisting the Emergency Services Department with emergency incidents, and working closely with the department Superintendent with regards to staffing, rosters and flights. With risk management and health and safety being of primary importance on mine sites, we employ a qualified security and risk management and occupational health and safety consultant.

Please let us know how we can be of assistance in the security aspect of your operation, and of any upcoming tenders you may be considering.

Should you also be considering other services, we are affiliated with Crystal Quality Services (www.crystalwindows.com.au) who provide window cleaning and industrial/high level cleaning, and Perth Test and Tag (www.perthtestandtag.com.au) who carry out electrical appliance testing.

We look forward to hearing from you.

Kind Regards,

Steve Wilde & Matt Coghlan
