Specialist Orthodontist

Dr Fernando and his team at m.brace orthodontics are excited to be the first specialist orthodontic practice in Point Cook.

We aim to provide the highest quality orthodontic care available, using state of the art technology. It's our goal to provide excellence and the best possible experience for our patients in a friendly and caring environment.

As a registered specialist, Dr Fernando has met the stringent requirements of the Dental Board of Australia in the comprehension and provision of orthodontic treatment. Specialist orthodontist registration also means that our patients can have their X-rays bulk billed, and in many cases may be eligible for significantly higher rebates from their private health insurers.

Dr Fernando completed his dental degree from the University of Hong Kong in 1998. He worked as a house Officer in Orthodontics and Paediatric Dentistry and then spent several years in private general dental practice in New Zealand. In 2005 he completed his Doctoral in Clinical Dentistry in Orthodontics from the University of Adelaide, and also obtained his Membership qualification at the Royal College of Surgeons (Edinburgh).

After spending several years in Melbourne working in the eastern suburbs treating predominantly teenagers, then complex adult cases in Melbourne CBD, Dr Fernando is thrilled to be establishing his own specialist practice, m.brace orthodontics in Point Cook.
