

What Our Clients Say

It is with great pleasure that I strongly recommend GLOBE ELECTRICAL GOLD COAST.

Both corporately through my company, Finesse Property, and personally have we utilized the services of Brodie and his team at GLOBE ELECTRICAL GOLD COAST.

The service we received from GLOBE ELECTRICAL GOLD COAST was very refreshing, as having dealt with a number of tradespeople over the years we have found most to be unreliable and unprofessional in their manner and workmanship. Brodie over delivered on service and more than satisfied our needs.

I give GLOBE ELECTRICAL GOLD COAST my wholehearted endorsement.

Shane Evans | Finesse Property

We are so impressed by Globe Electrical Gold Coast. They are always so professional, efficient and friendly.

Harmony Rutledge | Unique Health Products

We have had the pleasure of knowing Brodie for a few years now as an integral young man. Who he is, is represented in the work ethic he has too, we have had Glow electrical do some work at our home from installing fans to assisting with our hot water cylinder replacement. We would recommend him to do any electrical work you may require.

Matu & Denise Kahika

I have known Brodie Hurlock from Globe Electrical Gold Coast for several years and used him to complete both business and home electrical work.

Brodie is always prompt and available for advice, works with integrity and always completes work on time and with excellence.

And, unlike many tradies, leaves the job site in a clean and tidy state!

I have no hesitation in recommending him for any electrical work.

Michael Paynter

Globe Electrical Gold Coast came out to restore power after the heavy rain, at very short notice. We were back up and running again in no time. Working away from home and having family, it means a great deal to have someone you can trust when you can't be there yourself. We now use Globe Electrical Gold Coast for all our electrical needs and Brodie will be back to reduce our electrical consumption by changing tariffs and making all the necessary changes. I am very happy to recommend Glow Electrical.
