

**PermaTimber™**  
No.1 for Timber Composites

## High Performance, Eco Timber for the 21st Century

PermaTimber™ is a high performance, eco-friendly composite timber solution built for Australian conditions.

There's no need to seal or stain your deck if it's made with [PermaTimber™](#). Made from 87% recycled materials, it's lightweight and easy to install, UV stable, termite resistant and will not warp, twist or rot.

*Want more info?* Our in-house design and engineering team can customize a solution to suit your timber requirements, whether that's decking, cladding or screening.
