MyBusiness Online™

The Affordable Website Solution for Small Business

On the outside

Under the hood

Under a grand

Your own Business Grade Website set-up and running for under \$1,000*

MyBusiness Online™

Creative Connect is proud to announce MyBusiness Online™, the all-in-one business website solution designed specifically for small to medium sized businesses at a price everyone can afford.

Powerful Features

MyBusiness Website™ is a fully featured online business website with powerful tools like eMail Marketing, online sales, a customer database that looks after itself, sms notification of web enquiries, plus traffic monitoring to see how your website is performing. All this is built-in and accessible through one central console, keeping you in complete control of your online business.

It's Your Website

Once onboard, your new MyBusiness Online™ website is all yours. You are free to make any changes you like via the built in editor. Or if you prefer, we can make the changes for you. No software is required - all you need is a computer with internet connection.

How can you get so much for so little?

We've identified the essential functions for a successful online business website and packaged them into one low cost solution. We offer four designs with a range of clour themes to ensure a unique look for your new website. We then add your content, including logos and images.

Safe and Secure

Unlike many websites, you do not need to worry about software and security upgrade costs. This is all part of your low monthly web hosting fee.

What you get

- < Professional feature packed website
- < Built-in console for full control
- < Built in performance reporting
- < Freedom to edit your own website
